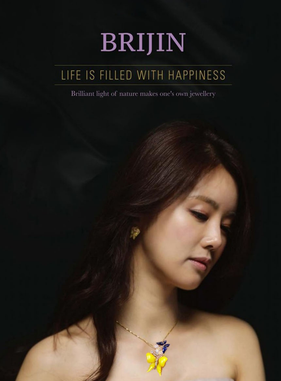
BRIJIN

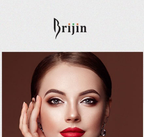
LIFE IS FILLED WITH HAPPINESS

Brilliant light of nature makes one's own jewellery



Attaching 'STONE' to art jewelry is manufactured using
the special shape technique which is our own technology.
Decorative 'STONE' for jewelry has atypical and asymmetrical shape
with various colors and artistic value.
We aspire to create art jewelry, BRIJIN as a luxury brand that
people who know the design and value love.
Applying this, manufacturing process of 'STONE' is low-volume and high variety products.

Brijin



Art Jewelry

DAJIN Jewelry has own original technology,
so no one can make duplicated products.

MASTER SPRIT

This jewelry is the first
creative man-made stone
that comes to close
to colored stone.
Only best polisher is able to create
this jewelry that is made of
natural mineral.
That's why its light and luster are
permanent and
it has scratch resistance.

MEET GLOBAL BRAND

The common art jewelry
production process is using
plastic materials glue for
bonding enamel, cloisonne, etc.
Because 'MINERITE STONE'
that is DAJIN JEWELRY's own
is manufactured with
different process
it is able to keep up
with luxurious jewelry brands

BRAND POPULARITY

BRIJIN is a product that
is made of various color of
natural minerals such as
crystal mineral, cubic mineral
and rare earths by using
liquid volcanic eruption principle.
Jewelry with high added-value
might be popular products.
